**Spring Grove Nursery Species Diversity List**

At Spring Grove Nursery we are proud to have a diverse & superior selection of tree species growing in our nursery. We work very hard to select a mix of trees that are well suited for our landscape while at the same time offer a unique palate of colors & textures throughout the seasons. Our tree mix changes a bit every season, and we are always looking for new varieties to add to our nursery. We seek out the best liner suppliers to partner with so that we can insure that the trees we plant are of the best quality & heritage.

Some of the trees on our list are ready to dig & sell now, and some are still growing in the field. Please check with us for the most current availability with pricing.
