

CANOPY JOE

IT'S TREE TIME AGAIN!

Another year has rolled around and that means it is tree season! I have kept many of the same trees from last year, but I have also added to the variety. The new trees are Sourwood, Arborvitae, Shingle Oak, and Sweetgum.

LOOKING BACK

Last year, I sold a total of 70 trees. That means that 70 trees were also planted in our National Forests. I need your help to get that total even higher. Thanks!
