

Tried & True Selections

From your Growers at Spring Grove Nursery

Spring Grove Nursery took root back in 1999, making 2019 our 20th year of growing. Here is a highlighted list of trees we have found to perform well in our nursery and in the landscape. These trees thrive in our fields despite the extreme climate fluctuations we have experienced in recent years. We are always evaluating which selections seem to flourish despite a wide range of extremes, yet still offer ornamental interest in the landscape. Everything we grow here at the nursery is worth merit, or we wouldn't grow it! These are just a few selections that have caught our attention in recent years:
