

Welcome to SGN Trees!

At Spring Grove Nursery, we grow healthy trees, deep roots, and strong communities. This guiding core purpose is front and center for us in all aspects of our farm. We can't wait to see what new roots and relationships will grow in the season ahead!

Here are a few highlights that we are excited about this season:

- ◆ **Healthy Trees** – Our species list continues to evolve as we seek out the best trees to grow on our farm. Our SGN Team works hard to grow trees that will thrive in the landscape for many years after the trees leave our farm. We can't wait to plant a new crop of trees this spring and begin to craft them for the future!
- ◆ **Deep Roots** – As part of a 6th generation family farm, our roots run deep around here. We are excited to welcome the next generation into our farming operation as Maggie Thomas Harper and Joey Thomas join our SGN Team this season. They have both grown up in the nursery, and it is exciting to have them on our team as we continue to grow for the future!
- ◆ **Strong Communities** – We are passionate about trees. Sharing what we love about trees allows us the opportunity to grow more than just trees – we can grow relationships, careers, knowledge, ideas, health, beauty – all of these contributing to a stronger community through trees!

Thank you for the trust you have placed in us as your grower. We look forward to growing for you this season, and we invite you to join us as we grow healthy trees, deep roots, and strong communities!

Your Growers,

Jamie Thomas Becky Thomas
