

FAGUS SYLVATICA 'ROSEMARGINATA'

Tricolor Beech

Height: 30'

Spread: 20'

Growth Rate: Slow

Shape: Oval

Foliage: Variegated,
purple with pin and cream

Fall Color: Bronze

Flower: Insignificant

Fruit: Nut

Distinctive Features: Variegated colorful foliage that appears to glow in sunlight

The Tricolor Beech's purple-bronze leaves have colored edges of rose, pink, and cream. Truly a fine specimen beech, great for anywhere you want to add a splash of unique color. Due to their slow growth in our fields, we generally buy them from supplier nursery partners who can produce them a bit faster than we can.

GROWER'S NOTE: At SGN Trees, we grow healthy trees, deep roots, and strong communities. Our philosophy of growing stems from our core values and guiding principles of stewardship, hard work, honesty, simplicity, and diversity. We hope you will join us this season as we cultivate deeper roots and relationships that will grow for many years to come!
