

POPULUS TREMULOIDES

Quaking Aspen

Height: 30'
Spread: 15'
Growth Rate: Medium
Shape: Narrow, pyramidal

Foliage: Green
Fall Color: Yellow
Flower: Catkins
Fruit: Capsule

Distinctive Features: Striking silvery-gray bark with leaves that flutter in the wind

Quaking Aspen is a narrow to oval tree that adds a bright splash of yellow color to the fall landscape. The silvery gray bark shines in the winter, and when the leaves tremble in the breeze they are a delight.

Midwest Native

GROWER'S NOTE: At SGN Trees, we grow healthy trees, deep roots, and strong communities. Our philosophy of growing stems from our core values and guiding principles of stewardship, hard work, honesty, simplicity, and diversity. We hope you will join us this season as we cultivate deeper roots and relationships that will grow for many years to come!
