

ACER PSEUDOSIEBOLDIANUM X PALMATUM 'HASSELKUS'

Northern Glow Maple

Height: 20' **Foliage:** Green
Spread: 24' **Fall Color:** Orange-red
Growth Rate: Slow **Flower:** Greenish-yellow
Shape: Upright rounded **Fruit:** Samara

Distinctive Features: Specimen tree with delicate foliage

Northern Glow Maple is a hybrid of Japanese & Korean Maples that was developed in Madison, WI by Dr. Ed Hasselkus with seed originating from the tough and cold hardy Korean Maple. The form is upright, broadly spreading with a unique leaf shape that is bright green in the summer. In fall, this specimen glows with brilliant fall colors ranging from bright orange to deep red

GROWER'S NOTE: At SGN Trees, we grow healthy trees, deep roots, and strong communities. Our philosophy of growing stems from our core values and guiding principles of stewardship, hard work, honesty, simplicity, and diversity. We hope you will join us this season as we cultivate deeper roots and relationships that will grow for many years to come!
