

Living Christmas Tree

Celebrate this holiday season with your very own Black Hills Spruce living Christmas tree! Prepare a spot in your yard for planting after the holidays, keep your tree watered, and enjoy winter's beauty!

Tree Tips & Info:

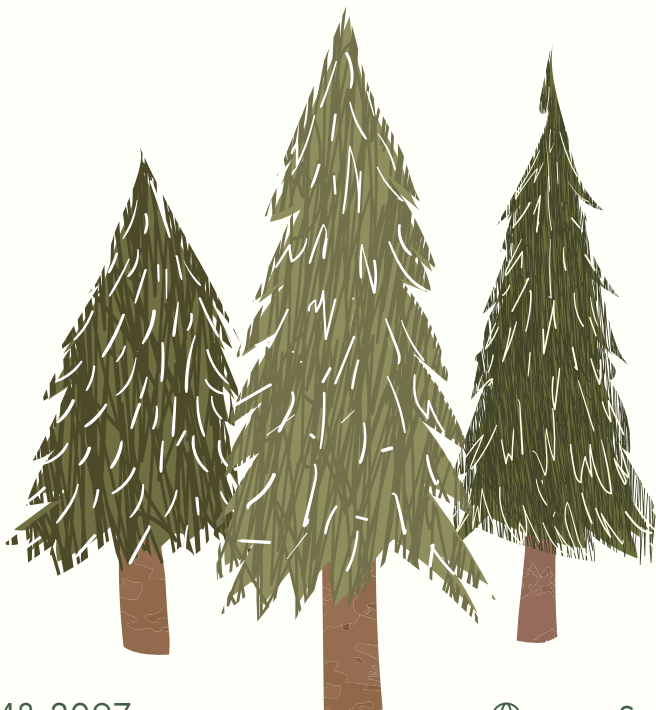

- Black Hills Spruce grow to 40' tall by 15' wide. They are slow growing & dependable.
- They have a deep green color and support local habitat.
- Trees will be 3' tall in a 5 gl pot. Keep soil lightly moist until planting.
- Dig your hole before the ground freezes approx 12' wide by 12" deep.
- Plant shortly after the holidays and keep watered through next season.
